We at the Berwyn Public Library strive to develop a friendly, dedicated, and creative staff within an open and welcoming environment that celebrates our community's diversity.

In our library:

- We excel at patron interactions and putting the patrons first
- We shine when it comes to being out in the community and engaging with community members
- We highly value people's language, culture, and heritage
- We come together to help and support one another
- We work hard to connect with patrons and each other
- We are working towards demonstrating respect and empathy towards ourselves and each other
